

The **Multi-City Challenge Africa** aims to solve complex urban problems in collaboration with the people most affected by these problems: the residents of the city.

**WE WANT TO HEAR FROM
YOU**

THREE CHALLENGES

Integrating the informal economy

**Building urban resilience in slums
and informal settlements**

**Reducing waste generation and
improving waste management**

HOW WOULD **YOU** SOLVE THEM?

We seek **innovative, low-cost ideas** to solve these challenges that can be implemented by the cities in the short term.

Your ideas can make the difference
